## **MEMBER (AM) IN THE GENERAL DIVISION OF THE ORDER OF AUSTRALIA**

**Dr William Terry O'BRIEN OAM**, 33 High Street, Kew Vic 3101

For significant service to maritime engineering, to the development of innovative marine navigation equipment, and to education.

OMC International (O'Brien Maritime Consultants)  
Executive Director, current.  
Founder, 1987.

Products developed include: Dynamic Under Keel Clearance (DUKC) e-Navigation Management system, to determine the minimum safe under-keel clearance along the transit of a vessel from berth to deep water at ports which have draft limitations, taking into consideration environmental conditions (waves, tides, currents), vessel characteristics and speed, and channel configurations. This allows ships to be loaded to a greater draft than is possible using fixed under keel clearance rules, thus increasing port productivity without the need for new port infrastructure or dredging, and without compromising safety standards.

Optimiser, a ship scheduling tool.

iHeave, a ship motion measurement instrument.

DUKC Chart Overlay.

Dynamic Port Capacity Modelling.

Berth Warning System.

Lecturer, Swinburne University of Technology, teaching DUKC technology case study examples as part of postgraduate port engineering unit, annually since 2008.

Senior Lecturer, Reader and Lecturer, Departments of Civil Engineering and Environmental Planning, University of Melbourne, 1965-1986.
